

I go grocery shopping to buy snacks,

pre-cooked meals, and ingredients to make

meals at home.

When I finish my shopping, I walk to the

cashier and get in line. When it is my

turn, the cashier will scan my items and

tell me how much money I owe. I pay the

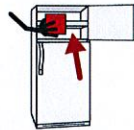

cashier and then I go home.

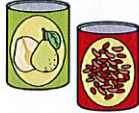

At home I put my groceries away.

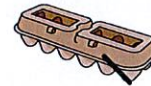

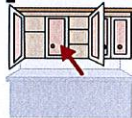

I put frozen food in the freezer.

I put canned food and warm packages

in the cupboards. I put cool foods in the

refrigerator.
